MESSAGE FROM THE CEO

It is a privilege for the South African Fresh Produce Exporters' Forum (FPEF) to present the 2025 edition of the Fresh Produce Export Directory. This unique directory is published annually as a service to, and a source of information for the international fresh produce trading community.

The FPEF is a private, non-profit organisation – funded by its more than 160 members. These members represent about 95% of the fresh produce export volumes from South Africa. FPEF members consist of fresh produce export agents, producer-exporters, pack houses, logistics and other service providers. The FPEF Export Directory contains comprehensive information about South African fresh fruit and vegetable exports, including the contact details of FPEF members – updated regularly on the FPEF website: www.fpef.co.za

The publication features different kinds of fruit and vegetables and provides the latest statistics about South African fresh fruit and vegetable export volumes, export periods and export destinations. We trust that the information contained in this edition of the Export Directory will be of value to you in your trade relations with the South African fresh produce export industry.

Please note that the information contained in this publication was correct at the time of publication. Should information change, the digital version will be updated on our website.

Anton Kruger

Chief Executive Officer (CEO)
Fresh Produce Exporters' Forum (FPEF)

OVERVIEW OF SOUTH AFRICA AND THE FRESH PRODUCE INDUSTRY

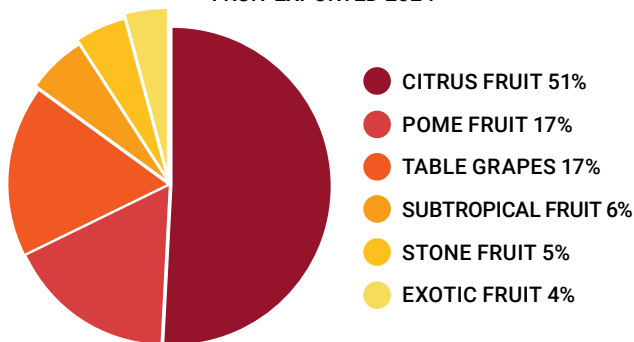

South Africa is located at the southernmost tip of Africa. Prominent ports for the export of South African fresh produce are the ports of Cape Town, Durban, Port Elizabeth (Gqeberha) and the neighbouring port of Ngqura – also known as Coega.

The winter season in South Africa falls between May and August, whereas summer begins mid-October and lasts until the end of February. This is counter-seasonal to the Northern Hemisphere. South African fresh fruit exports are therefore focused on countries in the Northern Hemisphere – not competing with these countries, but rather complementing the offer to consumers – to ensure year-round availability of all fruit kinds.

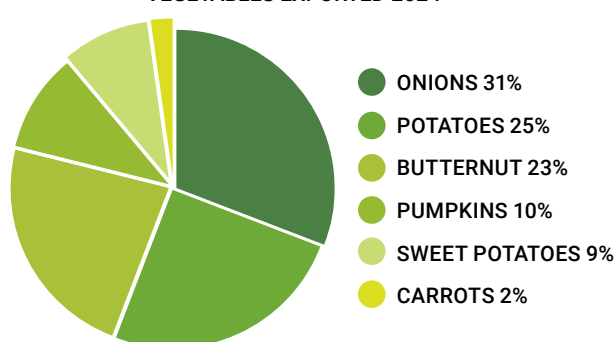

South Africa has a well-established and highly functional financial system – backed by the South African Reserve Bank. The local currency is the South African Rand (ZAR).

Fresh fruit accounts for approximately 35% of South African agricultural exports. Fruit exports include citrus fruit, pome fruit, stone fruit, table grapes, subtropical fruit, berries and other exotic fruit – exported to more than 100 destinations. Forecasts indicate a growth of 35% in fruit production by 2032. Vegetables are also exported from South Africa. The economic value generated from these exports is in excess of \$4 billion.

OVERVIEW OF THE FRESH PRODUCE EXPORTERS' FORUM

The Fresh Produce Exporters' Forum (FPEF) is a voluntary, non-profit organisation with more than 160 members who must adhere to a strict Code of Conduct to ensure that only competent and reliable marketing agents, grower-exporters and other service providers are accepted as members of the Forum. FPEF members account for about 90% of fresh fruit exported from South Africa.

Essentially a service organisation, some of the FPEF's services include generic promotions in new and existing markets, the distribution of information to members and representation of the industry in relevant committees.

The FPEF also provides training programmes, market access support for emerging farmers and emerging exporters, as well as

a placement programme for graduates seeking employment in the fresh produce export industry. In addition, the FPEF manages the Post-Harvest Innovation (PHI) Programme. The PHI programme is a successful public-private partnership – focused on post-harvest research projects across a range of industries within the South African horticultural sector.

The FPEF is also a pivotal link between Government and the industry regarding market access and related matters. More than anything, the FPEF intends to create value for its members to help ensure a profitable, sustainable and globally competitive fresh produce export industry.

Reports give you valuable insights into your business, starting and ending with data, all focused on your fruit-related operations.

ROOT2GO

Our live, comprehensive, mobile information and executive reporting dashboard to all the stakeholders along the journey of their cargo.

STOCK2GO

Stress-free stock management with all the information you need at your fingertips. Goodbye costly software and the need for additional staff.

Specialist Freight Management Departments

**General
Cargo**

Clearing and forwarding for import and export general cargo, globally.

**Handling &
Storage**

Ultra-modern cold storage and general cargo handling facilities.

**Quality & Quantity
Assessment**

QC specialists delivering inspection, monitoring and facilities management.

**Road
Transport**

Our own fleet of trucks and live App reporting on your load status.

**Customs
Clearance**

Customs clearance assistance across Southern Africa.

**Air
Transport**

Multiple global airfreight solutions to optimise freight costs and routes.

**Charter &
Shipping**

Multiple global solutions to optimise freight costs and routes.

**Port to
Receiver**

From the final port to the final receiver, customs clearing and delivering.

SUSTAINABILITY INITIATIVE OF SOUTH AFRICA (SIZA)

Ensuring World-Class Agricultural Products

SIZA, the Sustainability Initiative of South Africa, supports growth, sustainability, and productivity by caring for the environment, respecting the rights of workers, and initiating safe working and living conditions to ensure world-class agricultural products for the local and global market.

Local and International Recognition

SIZA is a multisector, agri-wide South African standard, developed, owned, and operated from within South Africa. SIZA is aligned to global best practices on both social (ethical) compliance and environmental assurance which relates into recognition and equivalence in more than 17 countries. SIZA has endorsed a credible third-party social and environmental audit programme with audits conducted by recognised audit companies. SIZA is focused on continuous improvement and drives a cost-effective business approach by supplying one ethical and one environmental audit for growers in South Africa and neighbouring countries.

Information Exchange

SIZA has an effective and modern data platform, called *MySIZA*, which is used for managing and sharing data on social practices and environmental assurance throughout the value chain.

Environmental Assurance

The SIZA Environmental programme offers a standalone or a combined solution third-party audit methodology to members who need to complete the GLOBALG.A.P. Integrated Farm Assurance (IFA) audit as well as SIZA Environmental. While the combined audit takes place at the same time, two separate audit reports are generated, and the environmental report is uploaded to *MySIZA* to ensure visibility to multiple buyers.

Beyond Audits / Remedy — Showcasing Best Practices and Creating a Balanced View

SIZA's Beyond Audit programme promotes and acknowledges best practices that are implemented by producers beyond the audit process, where they have achieved more than compliance and create value. Remedy is part of corrective actions to ensure continuous improvement.

Contact: www.siza.co.za or retha@siza.co.za

"The aim of SIZA is to always drive continuous improvement whilst ensuring compliance to legislation and the SIZA social and environmental standard."

NOTES

WORLDWIDE SOURCE AND SUPPLY EXPERTS

At Cape Five we are constantly striving to innovate, offering expertise to our suppliers and growth opportunities for our customers.

Relationship building is key to our success and we work with passion and integrity in everything we do.

With 25 years' experience, and access to multiple global markets Cape Five is your trusted source and supply expert.

Our values are the foundation of our business:

Growth

We are an ambitious, growing, profitable and sustainable business.

Expertise

We are experts and problem solvers, delivering agile solutions, based on our detailed expert knowledge of the fresh produce value chain.

Innovation

We aim to be innovative and dynamic, bringing energy and passion to the way we work.

Relationships

We build relationships by ensuring we understand and deliver on the diverse needs of those we do business with.

Integrity

We strive to be consistent, fair and transparent in all our dealings with our growers, our customers and our people.
